

SAFWAN HASHMI

Senior Software Specialist

📍 House No. 41 Bella Road G-10/1 Islamabad Pakistan
📞 Mobile : +92 335364904
✉ Email : hashmisaf@outlook.com
🌐 pk.linkedin.com/in/hashmi-safwan-12117052

Professional Summary

A highly organized IT professional who has a proven track record of using good engineering practice to produce software for new, innovative and profitable products and solutions. At the heart of his strength is the ability to work on the development of software systems by accurately interpreting user requirements, then creating the required software designs, coding and testing them and finally integrating the software. At all times he makes sure that both the company's and the client's interests are at the core of any IT project. By possessing a sound knowledge of modern software development techniques, methods, tools and languages he is able to ensure enhanced user interaction. He is proud to possess a long record of achieving the desired outcomes of projects, on-time and always within budget. A real team player who can comfortably work with Business Analysts, Solution Designers, Deployment Teams and Testers to develop and enhance software functionality. One of his greatest strengths is being able to appreciate the bigger business picture, and not just a projects immediate software requirements.

Hashmi is a driven individual who wants to progress and is now looking to take the next step in a already accomplished career by joining a successful company.

Work History

IT Specialist

Oct 2015 - Present

Pakistan Defense Forces

- Code in C# using various Microsoft platform technologies, including ASP.NET WebForms, WCF, and others.
- Implement new features leveraging both server-side logic (in C#) and rich client-side functionality (JavaScript, AJAX).
- Collaborate closely with user experience designer on screen prototypes, process flow diagrams and functional specifications.
- Perform unit testing of programs and reports; create, document, and execute unit testing, evaluate results against specifications, isolate and fix defects.
- Coordinate activities with other team members for successful transition of the application through development, testing, implementation and maintenance stages.
- Provide production support for existing systems including trouble-shooting, fixing bugs, and implementing enhancements.
- Update and maintain HTML/CSS/JavaScript.
- Database design in MSSQL/Oracle

Founder CEO

Jul 2015 - Present

3X Enterprise Solutions

Software Developer

Feb 2015 - Oct 2015

Bahria University HQ (Pakistan Navy)

- Translate application storyboards and use cases into functional applications
- Design, build, and maintain efficient, reusable, and reliable C# code
- Ensure the best possible performance, quality, and responsiveness of applications
- Identify bottlenecks and bugs, and devise solutions to these problems
- Help maintain code quality, organization, and automatization

Web Engineer(Intern)

Jan 2014 - Aug 2014

Bahria University Islamabad Campus

- Design implement .Net both web and desktop applications, prototypes, user interfaces, and for clients.
- Design Databases and Integrating existing databases, database recovery and security.
- Develop framework process for applications project using existing technologies that is implemented in a structured, maintainable fashion.
- Maintain & support existing systems and websites and realize it is just as important challenging as building new apps.
- Analyze a client's needs develop the appropriate functionality, while not overbuilding.
- Translate specifications from analyst's graphic designers into working application.
- Perform development, upgrade, install development solutions

Education

Bs Computer Science (BSCS)

2010 - 2014

Bahria University Islamabad

Major Subjects : Software Engineering I & II ,Software Project Management,

Object Oriented Programming , Data Structure, Computer Graphics ,Data Encryptions & Security, Database Management Systems

Intermediate in Computer Science (ICS)

2008 - 2010

Islamabad Model College For Boys F-10/3 Islamabad

SSC

2007 - 2008

Islamabad Model College For Boys F-10/3 Islamabad

Certifications

Oracle Database 11g: Administration Workshop 2 Release

Feb 2015

Oracle

- Back and recover a database (and its parts) with RMAN (command-line and Enterprise Manager)
- Use flashback technology to view past states of data and to revert either objects or the entire database back to a past state
- Use an appropriate and flexible memory configuration for your database
- Identify burdensome database sessions and poorly performing SQL
- Configure the Oracle Database for optimal recovery
- Configure the database instance such that resources are appropriately allocated among sessions and tasks
- Schedule jobs to run inside or outside of the database
- Use compression to optimize database storage and duplicate a database

Oracle Database 11g: Administration Workshop 1 Release

Jan 2015

Oracle

- Install Oracle Grid Infrastructure
- Install and configure Oracle Database 11g
- Configure Oracle Net services
- Monitor and administer undo data

- Manage the database storage structures
- Create and administer user accounts
- Perform basic backup and recovery of a database
- Manage data concurrency
- Monitor performance
- Describe Oracle Database Architecture

Oracle Database 11g:Introduction to SQL Release 2

Dec 2014

Oracle

- Back and recover a database (and its parts) with RMAN (command-line and Enterprise Manager)
- Use flashback technology to view past states of data and to revert either objects or the entire database back to a past state
- Use an appropriate and flexible memory configuration for your database
- Identify burdensome database sessions and poorly performing SQL
- Configure the Oracle Database for optimal recovery
- Configure the database instance such that resources are appropriately allocated among sessions and tasks
- Schedule jobs to run inside or outside of the database
- Use compression to optimize database storage and duplicate a database
