SKILLS

- *PROGRAMMING:*

  C#.NET
  VB.NET
  ASP.NET
  ASP.NET MVC 4.0
  Web API
  WCF 3.5
  AJAX
  Jquery
  AngularJs
  JavaScript
  CSS 3
  HTML
  Crystal Report
  T-SQL

- *RDBMS:*

  MS SQL Server 2008
  MS-Access

- *GRAPHICS SUITS:*

  Photoshop

Professional Training

- *ASP.NET Web Development Using C#.NET*

  Institute: Novel Research & Development(NIVT) India Private Limited, Salt lake City, Kolkata

  Duration: 4 Months

Languages Known:

- English
- Bengali
- Hindi

PROJECTS

Some of my challenging projects are as follows:

➢ **Project Title: Atlas LabWorks**
LabWorks provides physicians and staff with convenient web-based access to place orders and retrieve results. Safety and accuracy are ensured with automatic label and requisition generation at the point of specimen collection, whether in the office or at an offsite patient service center.

Client: 200+ Laboratories in US
Technologies Used: ASP.NET, C#, Web Service, Jquery, InterSystem Ensamble
Responsibility: Product Customization Planning and Development according to client requirements.

➢ **Project Title: Atlas Patient Portal**
ATLAS Patient Portal is a web-based application that allows diagnostic facilities an efficient, compliant method for patient access to their own test results without requiring approval of the ordering physician. Laboratories can provide the portal to physician customers and deliver a valuable service directly to patients. This also allows patients to actively participate in their healthcare decisions by becoming more knowledgeable consumers as they acquire and maintain a long term record of their own diagnostic data. Physicians and patients will perceive the web-based service as a strong value-added component to your brand services.

Client: Sonora Quest Laboratories, DLS laboratories
Technologies Used: MVC 4.0, Web API, AngularJs, Bootstrap, WCF, SQL Server
Responsibility: Understanding requirements from Product analysts and creating Technical Design document accordingly, Guiding fellow team members and writing code.

➢ **Project Title: WebvCMR (Web Visual Confidentiality Morbidity Report)**
WebvCMR is an electronic reporting system for communicable diseases. It's main purpose is to make disease reporting, investigation, and tracking more efficient for Disease Control Programs in Public health departments of respective Counties. WebvCMR manages the investigative cycle of a disease or outbreak from date of onset to the final resolution.

Technologies Used: ASP.NET, VB/NET, Crystal Report, SQL Server, LLBL GenPro, Java Script, CSS.
Responsibility: Analysis, implementation & development

➢ **Project Title: Guardian - Infection Prevention**
Provides the tools to improve patient care within healthcare facilities while concurrently supporting public health reporting obligations.
Client: Los Angeles County
Technologies Used: ASP.NET, VB/NET, Crystal Report, Intersystem Cache DB, Java Script ,CSS.
Responsibility: Analysis, implementation & development

➢ **Project Title**: **AROMA**
Online Portal of Ambuja Realty.
Client: Bengal Ambuja Housing Development Ltd

Technologies Used: ASP.NET, VB.NET, MS Sql Server 2008, JQuery, AJAX,CSS.
Responsibility: Analysis, implementation & development

- ➢ **Project Title**: **EHS Data Management System**
  Database driven enterprise software application that covers data from the various broad fields of environment and waste management, occupational health and medical, safety and industrial hygiene.
  Clients: NASA, Johnson & Johnson, Textron Corporation, United States Army
  Technologies Used: ASP, MS SQL Server 2005, Crystal Report, JavaScript, HTML, CSS.
  Responsibility: Analysis, implementation & development

- ➢ **Project Title: PaySYS 1.0**
  Payroll system as per Central Govt. Salary processing norms.
  Clients: **Central Ground Water Board**, **Survey Of India**.
  Technologies Used: C#.Net 2005, Crystal Report, Ms. Access 2007,
  Role Played: Developer
